Micklehurst All Saints CE Primary School

At Micklehurst All Saints CE Primary School we began our Educater journey in 2019. Whilst we have been embedding the programme our progress has been slowed down by the impact of COVID 19. However, we are now confident that the system works successfully across school and has helped us to refine our assessment practices.

There are many different functions that Educater provides and we did feel initially overwhelmed but with regular support from the team we have been able to address any issues quickly and have reached the point where our staff are confident using the system and appreciate its user-friendly interface.

The reports that you can generate are extremely useful, particularly when reporting data to SLT and Governors. Our staff appreciate the efficiency of the pupil progress reports which summarise pupil progress and attainment succinctly.

Educater allows schools to tailor the system so that it works effectively to their specific needs, and this was particularly useful when embedding our approaches to the assessment of SEND children.

We are looking forward to learning even more about what Educater has to offer.
