

How to... Set up your SIMS.Net Connection.

NOTES: Educater has a connection to Sims.net which is used to keep staff and pupil details up to date. If you are a hosted SIMs, you will require 3rd Party Software called **SIMs Gateway** installing on your server. **To complete the Configuration Wizard, you will require Administrator or Full Access Role.**

1.	<p>Completing your Details</p> <p>Add the following details:</p> <p>Server Name and Database name – Located in Sims/Help/System Information</p> <p>Username and Password– User account created in SIMs.</p>	
2.	<p>Employees Detail Level</p> <p>Select the level of access you wish us to have.</p>	
3.	<p>Student Detail Level</p> <p>Select the level of access you wish us to have.</p>	
4.	<p>Download the Application</p> <p>Download our MIS Interface Application.</p>	
5.	<p>Keys</p> <p>Take note of the Organisation Key and the Upload Key as you will need these to add into the MIS Interface application.</p>	

6.	<p>Saving Details</p> <p>Click Save and Continue to continue the set up or Set Up Later. You will have the option to download once you select Save and Continue.</p>	
7.	<p>Completing your Installation</p> <p>If you delayed the download, you can come back to the wizard and select Start SIMS Download.</p>	
8.	<p>Next Step</p> <p>Once the download has been completed, return to the Configuration Wizard to complete the setup of your organisation.</p>	
9.	<p>Support Available</p> <p>If you require any support during the process, contact the Support Team via Live Chat, Telephone or Email – support@educater.co.uk.</p>
