

Emma Williams
Whitby Heath Primary School

Here at Whitby Heath, we have been using Educater since 2019. The use and application of it has gone from strength to strength as we unpick and unlock further features of it, both through virtual and face to face meetings with Karen Thompson, as well as utilising and accessing the Learning Hub for a plethora of webinars and development opportunities.

Educater has allowed us, as a school, to use a platform to log, monitor and track pupil's progress, assessments, test scores, gaps in learning and many other features. It allows us to have up-to-date information as well as providing us with an easy-to-use system, at all levels. Being able to customise our own grids has also been a great facility for us to use and develop across our curriculum.

We use Educater to track English, Reading and Maths as well as developing our own, custom-made foundation subject grids as well as developing a Learning Behaviours grid.
