

How to ... Integration for Wonde Non-Users

NOTES: We are partnered with Wonde to enable schools to connect and synchronise the Educater system with your MIS. We are aware that you currently do not use Wonde.

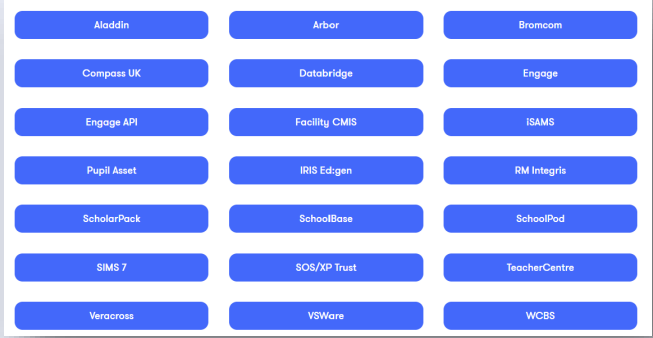

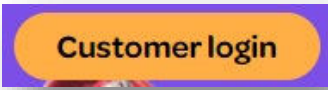

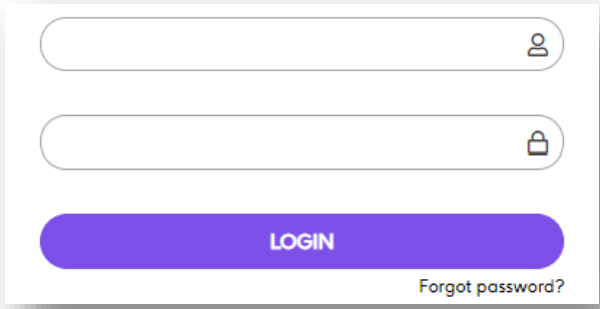

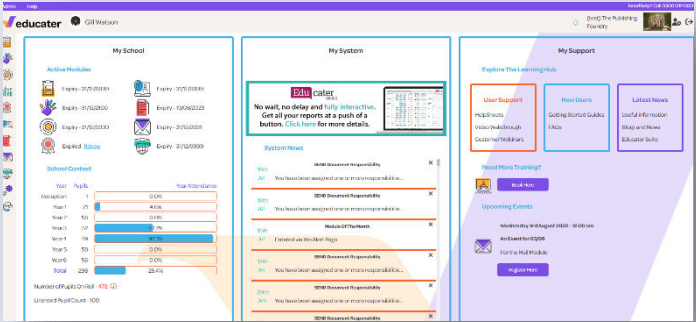

About Wonde

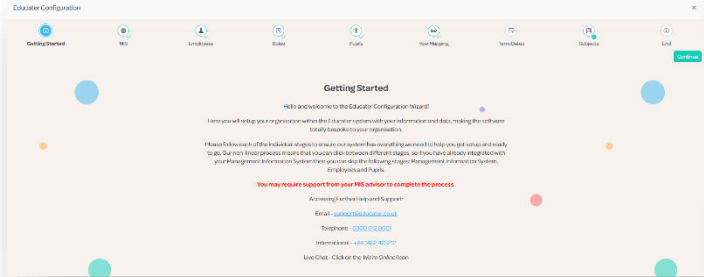

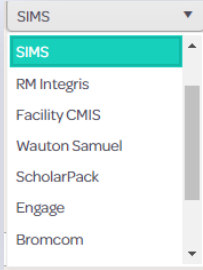

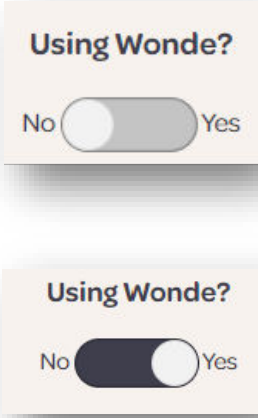

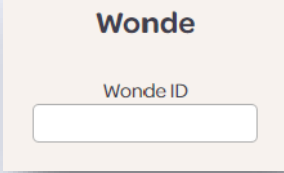

Wonde is a leading provider of data management solutions, providing a protective layer between the data in a school MIS with third-party applications. Schools can have peace of mind that the data being shared is not only safe, but up to date, with Wonde integrating seamlessly to ensure any changes made within an MIS are mirrored in the third-party applications schools use. Trusted by over 27,000 schools, 400 apps and 35 million individuals, Wonde reduces staff workload, optimises data security and supports the provision of learning.

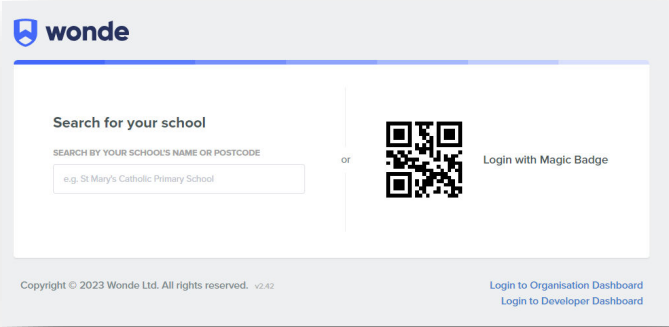

You will have access to your **free portal**, where you will have visibility and management over any information you choose to share with Wonde.
